

# How to make a... Hay Kebab

Perfect for rabbits and guinea pigs!

## WHAT YOU WILL NEED

- Adult supervision
- Hay
- 3 x cardboard tubes
- 1 x willow stick
- Pen

### STEP 1

Carefully push your pen through the cardboard tube to pierce a hole on both sides.

Repeat this for all 3 cardboard tubes.

### STEP 2

Take a handful of hay and fold over at the top then push into a tube.

Repeat for all 3 cardboard tubes.

### STEP 3

Next, take your willow stick and push through the cardboard tube to the other side. Make sure you are careful to keep your hand away from the hole on the other side!

### STEP 4

Now it should be starting to look more like a hay kebab! Repeat the same thing until all of your cardboard tubes are on the willow stick.

Now watch your pets enjoying your hard work!

### TOP TIP

Stuff some tasty herbs and vegetables into your hay kebab for an extra yummy treat.
